3 OF EACH—TOTAL 102 MINIATURE IRIS GEMS—\$7.50

YOUR ORDER SHOULD BE PLACED AT ONCE

Shipment will be made from my Iris Ranch in the famous fertile Yakima Valley in the State of Washington, where we grow the finest iris in the world. They will all be fine strong flowering size plants, as fine as any I have ever shipped.

In planting these iris in September or October they should be planted with the top of the rhizome about 2 inches under the surrounding ground level. Just dig a small hole and put them in. They are hardy anywhere and should flower for you next year.

Although I believe I have enough of all varieties offered in this special bargain sale to fill all orders, I reserve the right to substitute equally good or better varieties for any iris of which the stock may become exhausted, unless you mention in sending in your order that substitutions are not desired, in which case your wishes will be respected.

I try to treat everyone alike, therefore when I make a special offer of any kind it goes to everyone on my mailing list. I do not make individual group prices other than these special offers made to everyone. Other than this, catalogue prices prevail on all orders large or small.

20 World-Famous IRIS

Given Away Absolutely Free

I WILL PACK AND SHIP THE FREE GROUPS OF IRIS INDICATED BELOW IF YOU WILL PAY THE EXPRESSAGE.

If you are a real iris lover and dream of making your iris garden the talk of the countryside, I want to give you a marvelous opportunity to acquire some of the world's rarest and most valuable plants by sending you some of my finest varieties ABSOLUTELY FREE. All you do is pay the nominal express charge from Washington. I can make this extraordinary offer though for a limited time only, because out on my great Yakima Valley Iris Ranch, in the State of Washington, where soil and climatic conditions are exactly right, I produce the world's finest iris on an unprecedented "mass production" scale—plants that are not only magnificent in size and beauty but so sturdy they will grow and flower beautifully in any climate, anywhere that plants will grow. To my notion, man and nature never created anything more gorgeous than these tall queenly, spectacularly colorful flowers. So do sit down **right now** and send for this special offer. These iris are best planted in early summer, preferably during July or August, therefore I am making this free plant offer early this year. Place your order at once, as all orders will be filled in the rotation in which they are received—"first come, first served", and I expect to have several thousand orders on hand when shipping season commences in July.
